

How To Ask Someone Out: Non-Romantically

There are multiple ways to ask to continue a conversation or get to know someone outside of class or a specific group or organization.

While it might seem awkward here are a few tips to keep in mind:

Classmates:

- Approach them in a comfortable environment like after class
- You can ask other questions before asking if they want to hang out later to get the conversation flowing
- Ask if they want to study together for class or go get lunch

Friends:

- Tell them that you like hanging out with them
- Ask if they want to go get coffee or go shopping, or some other activity that you both can agree on/have in common

Just remember to:

- Be authentic
- Show that you are listening to them
- Be respectful of the other person's boundaries
